## **Post – Tsunami Learning Communities Rebuilding Project**

### **Donations**

On behalf of Adult Learning Australia (ALA) I would like to take this opportunity to thank you for your interest and taking the time to learn more about this project.

Our aim is to draft a strategic plan in conjunction with ASPBAE and channel pledged resources into rebuilding and providing a solid foundation for adult community education in the Tsunami affected areas and ensure that future generations in those regions will benefit from the skills and educational tools that we can pass on to their community leaders.

Our longer term objective, however, is to form a coalition of adult learning peak bodies world-wide, and with the help of ASPBAE, choose adult learning organisations in Tsunami affected regions and help those organisations to rebuild their adult education services and skills, within their communities.

ALA is proud to be associated with ASPBAE and together we will be looking to provide support to the many communities in the Tsunami affected regions. We have all seen vividly the catastrophic loss of life and infrastructure, though in real terms the loss of traditional skills, community support networks and educational infrastructure cannot be counted so easily.

Your donation will help us to both initiate and continue our commitment to the adult education needs of several learning communities abroad. Initially, our focus will be directed at ensuring all proceeds from donations will go to adult learning community rebuilding projects in Aceh organised by the Centre for Women's Resource Development (Pusat Pengembangan Sumberdaya Wanita- PPSW).

All donations will be forwarded to the Asian South Pacific Bureau of Adult Education (ASPBAE).

For updates and information about our role in the rebuilding of the Tsunami affected regions please revisit our website [www.ala.asn.au](http://www.ala.asn.au) or call 1300 303 212.

Thank you in advance for your generosity.

Sincerely,

Executive Director  
Adult Learning Australia
